. . . It pays to arrange for
Telephones
in the plans! . . .

When "Concealed Telephone Wiring" is provided for before the house is built—there'll be no exposed wiring on base boards or moldings. For information and free literature, call the Business Office.

"Goodbye Daddy—you'll phone us won't you?"

There's no need to let a few hundred miles keep you from home and family. Not when you can be back with them in a minute or so from any convenient telephone!

A call of this kind will mean more than you think to those you've left back home. As one woman said "It seemed almost as though Jim were in the room with us. And was I lonely—until he called!"

Best of all, Long Distance rates to most places are reduced every evening after 7 and all day every Sunday.

Let the Telephone Help You

Yes—the telephone is a great convenience for ordering things from stores and chatting with friends.

But that's only a small part of the hundred and one things it can do. On busy days and when you're in a hurry remember that your telephone can help you.

So easy to get things done without rushing yourself to death; so easy to get quick answers to all sorts of questions.

So before you reach for your hat and "take off" to do any errand in person, just say to yourself "Can I do this by telephone?" You'll be surprised how often the telephone can do it for you. New York Telephone Co.
